

EMH: the one-stop place for membrane expertise & partnerships

The European Membrane House is a [not-for-profit international association](#) set up in 2008 by universities and research institutes in 10 European countries working together within the framework of [NanoMemPro](#) (FP6 Network of Excellence). The European Membrane Society is also an EMH founding member.

EMH, what for?

- to enhance industrial implementation of membrane-based technologies,
- to help develop a coherent and structured European system for membrane research and technological innovation.

This we achieve thanks to:

Institutional Lobbying • Developing research and industry partnerships • Facilitation services

EMH Clusters

Links with industry are developed by EMH thematic clusters, chaired by 1 academic and 1 industrialist.

EMH **Energy** Cluster – **Food** Cluster – **Health** Cluster – **Water** Cluster

We currently focus on developing links and projects in Russia and in the Mediterranean.

For more information, please visit <http://www.euromemhouse.com>

EMH founding members: European Membrane Society (EU), FORTH/ICE HT (GR), GKSS (DE), IBET (PT), ICTP (CZ), LUT (FI), SINTEF (N), Univ. Twente (NL), Univ. Montpellier (FR), Univ. Zaragoza (ES), VITO (BE).
