CONTENTS

Preface	vii
Biodiesel synthesis from used frying oils: Synergistic effect study using central composite design (CCD) K. Bourenane, S. Khalfoun, N. Azouaou (Algeria)	1
Exploring the dynamics of hydrogen enrichment in diesel engines H. Ghodbane, F. Khaldi, B. Derradji (Algeria)	9
Computational modelling of the performance of integrated building evaporative cooling system in Algeria climate K. Sellami, N. Cherifi, Z. Benhenni, N. Labsi, Y.K. Benkahla (Algeria)	15
Assessment of nominal operating cell temperature of PV module using different methods based on IEC61215 H. Hafdaoui, N. Belhaouas, N. Madjoudj, F. Mehareb, H. Assem (Algeria)	24
An alternative single plate-method for antibiotic residue screening in meat A. Tassist, M. Abouseoud, N. Tadjine (Algeria)	31
Numerical analysis of heat transfer in an unventilated granular silo featuring different storage capacities Y.A. Lakhdari, L. Nasser, D.E. Amezziani, R. Lakroune (Algeria)	41
Purification of an effluent from Sr, K and Hf, and confinement of the contaminated residue in a nuclear glass Y. Mouheb, E.H.K. Nour, S. Kamariz, F. Aouchiche, D. Moudir, A. Maachou (Algeria)	51
Cellulose nanocrystals-based hydrogel for adsorptive removal of methyl red from aqueous solution L. Chabane, O. Bouras (Algeria)	57
Investigation of the effect of two nanocomposite preparation methods on enhancing Rhodamine B degradation via the photo-Fenton process A. Mansouri, N. Bendjaballah-Lalaoui, S. Medjbar (Algeria)	72
Use of a new sorbent based on granulated polyethylene waste for the elimination of paracetamol M. Turkman, B. Badaoui, R. Meziane, N. Moulai-Mostefa, O. Bouras, H. Boutoumi (Algeria)	79
Treatment of a low concentration of uranium solution with marl treated by heat at different temperatures M. Bellaloui, N. Guettai, M. Bennemla, S. Khemaissia (Algeria)	87
Solvent free reaction under microwave: Eco-friendly MCR synthesis of new mono5-imino-5H-chromeno[3,4-c]pyridin-4-yl derivatives S. Benanane, N. Cheikh, N. Berbaoui, N.E.H. Bendehina, I. Ahou (Algeria), D. Villemin, A. Boumendjel (France)	99
Lattice Boltzmann investigation of contaminant removal efficiency in a ventilated chamber Y. Hamrioui, D.E. Amezziani, Z. Hireche, L. Nasser, R. Nebbali (Algeria), Y. Guo (China)	110
Application of AgNPs-doped MIL-53 in the catalytic reduction of methylene blue MB dye M. Hachemaoui, A. Mokhtar, B. Boukoussa (Algeria)	117

Using of the reclaimed steels fibers on the strengthening of reinforced concrete frames structures N. Talbi, A. Nekmouche, M.O. Ouali (Algeria)	123
Hexavalent chromium removal from wastewater using a continuous fixed-bed system with date palm stems D. Ziani, A. Maaliou, L. Djekoune, A. Moussouni (Algeria)	134
Structural analysis and mechanical behavior of cement mortars with valorization by drinking water treatment sludge as partial replacement L. Djekoune, A. Maaliou, D. Ziani, A. Moussoun (Algeria)	144
Study of the factors affecting the rheological behavior of the adjusting polymer “xanthan” in drilling muds H. Abchiche, I. Bouchelkia, F. Benaziza, S. Kadem, N. Chekir, N. Saada, W.H. Benhadda (Algeria)	154
Treatment of pharmaceutical contaminated water by electrochemical processes A. Zouai, Y.A. Ouassa, S. Bouafia, M. Chabani, N.E.H. Madi (Algeria)	164
Optimisation of thyme essential oil extraction by microwave: An investigation by Box–Wilson central composite design (CCD) S. Koribeche, S. Bertouche, N. Sahraoui, N. Sabba (Algeria)	171
p -CoFe ₂ O ₄ /n-AgCl-based photocatalyst for efficient removal of organic dyes from wastewater under visible light B. Brahimi, E. Mekatel, M. Mellal, M. Trari (Algeria)	179
Author Index	185
