

WSTA 15th Gulf Water Conference
Water in the GCC, The Role of Technology in Effective Water Management
28–30 April 2024, Doha, Qatar

CONTENTS

Digitalization in water: key to security in the realm of cyber insecurity risk in the Arab region H. Laamrani (Lebanon)	1
Deep neural networks application in environmental and water resources simulations M.M. Rajabi (Luxembourg)	3
Navigating water scarcity and supporting food security: market-based development of sustainable irrigation Y. Brouziyne, N. Amdar, M.B. Fraj (Egypt)	6
The role of the World Health Organization in drinking water, sanitation and hygiene and updated publications R. Al-Emam (World Health Organization)	10
Addressing climate change risks on water and food security in the Arab Region V. Nangia (Morocco)	12
Water MIS for efficient integrated water resource management P. Moix (Qatar), H. Ana'am (Yemen), A. Alkhatri (Oman)	13
Using technology to bridge the data gap for efficient management of agricultural water B. Coerver, A. Barhy, M. Abdallah (Egypt)	15
De-carbonization pathways in the water sector in the GCC countries H. Al-Ali (UAE), M. AlHajri (Saudi Arabia), M. AlAali (Bahrain)	17
Oil spill management to prevent catastrophic shutdown of desalination plants Zhaoyang Liu (Qatar)	18
Fuel allocation in water and power cogeneration desalination plant I.S. Al-Mutaz, M.S. Aldalbahi (Saudi Arabia)	22
Solar-driven desalination in Saudi Arabia for sustainable future R. Alrowais, D. Ybyraiymkul, M.Kum Ja, Kim Choon Ng (Saudi Arabia)	30
Advanced GC-MS-SIM method for simultaneous determination of isphenol-A and phthalic acid esters (PAEs) in seawater M. Akkbik, A.A. Ahmadi, N. Al-Qahtani (Qatar)	35
Oxide activated carbon for seawater desalination using solar energy W.A. Al Rawahi, A.S. Al Rahbi, M.S. Al Hashmi, M. Al Riyami, H. Al Aameriya, N.A. Al-Toubi, R.A. Al-Nabhani (Oman)	40
An innovative approach to desalination and cooling using forward osmosis with thermal recovery and vapor absorption cycle H.K. Abdulrahim, M. Ahmed (Kuwait)	47
Revolutionizing desalination: KISR's breakthrough projects addressing water crisis challenges M. Ahmed (Kuwait)	54
Multi-objective optimization of innovative renewable energy-powered desalination and cooling system: a cutting-edge approach H. Abdulrahim, M. Ahmed, Y. Al-Wazzan, S. Al-Jazzaf (Kuwait)	69

Airborne VHF sounding radar for desert subsurface exploration of shallow aquifers: DESERT-SEA E. Heggy (USA)	77
New developments in mathematical modeling of groundwater systems A. Larabi (Morocco)	78
Artificial intelligence application in hydrogeology and groundwater management K. ElHaj, D. Alshamsi (UAE)	81
Mainstreaming the outcome of the UN summit on groundwater in the Arab strategy for water security B. Imam (UNESCO)	84
Assessment of groundwater quality and its implications for drinking purposes in Najran, Southern Saudi Arabia A.A.J. Ghanim, A.A. Al-Swar, S.M. Naser, J.M. Al-Yami, H.T. Alsaqoor, S.N. Al-Haider (Saudi Arabia)	85
Flood hazard maps generation caused by hypothetical failure of the Tabqa Dam by use of HEC-RAS 2D model S.O. Sulaiman (Iraq)	97
Groundwater aquifers susceptibility index of waterborne diseases outbreaks (ASIWD) in Nile Delta, Egypt O.M. Sallam, K. Soliman (Egypt)	107
Assessing the hydrological and hydraulic behaviour of an arid catchment which determines flood impacts in the Dhofar governorate, Oman M.A. Al Balushi, J. Holden, M.A. Trigg (UK)	119
Development of flood risk mapping and mitigation strategies for Al-Qassim region A.Q. Kawara, I.H. Elsebaie (Saudi Arabia)	133
Atmospheric water generation in Qatar: a sustainable approach for extracting water from air powered by solar energy A. Gannan (Qatar)	141
Assessment of groundwater suitability for drinking and irrigation purposes using physicochemical parameters at Al-Jouf Area, Saudi Arabia R. Alrowais (Saudi Arabia), M.M. Abdel Daiem (Egypt)	146
Evaluating the hydraulic feasibility of brackish groundwater supply for small-scale reverse osmosis plants in community centers in Kuwait A. Aliewi, H. Bhandary (Kuwait)	153
Utilizing machine learning for short-term water demand forecast W. Eldamaty, M. Abdallah, K. Al Zaabi (UAE)	163
System dynamics model to study the effect of different policies on Bahrain's hydrological processes R. Aljowder, A. Habib (Bahrain)	171
Assessment of the sustainability of water management system in the Sultanate of Oman: A case study of Al-Batha basin Y.S. Al-Saadi (Oman)	180
Implementation status of integrated water resources management in GCC countries according to UN-SDGs M. Shamrukh (Egypt), K. El-Said (Qatar)	202
Using desalination for agriculture irrigation in GCC countries: state of art and future outlook M.A. Dawoud, W.H. Abou El Hassan (UAE)	209
Climate change and water scarcity: strategies for sustainable agricultural water use in the Arab Region K.M. Amer (Egypt)	222
Economics of water under climate change in Arab countries: a policy perspective M.A. Abdrabo (Egypt)	225
Harnessing biosaline agriculture for food security in the arid GCC R. Zaabol (UAE)	226
Developing a sensor-based agricultural water management system for irrigation scheduling, automation, and optimization F. Abbas, S. Al-Naemi (Qatar), A. Farooque (Canada), R. Benlamri, H. Ali, J.E.L. Ventura (Qatar)	229

The role of information technology in addressing soil logging and salinization in Diyala Governorate (Republic of Iraq) 2023 M.Y.H. Al-Hiti (Iraq)	239
Treated wastewater application in urban agriculture A. Al-Busaidi, M. Ahmed, W. Gallardo, W. Al-Aghbari (Oman)	251
Towards sustainable water management: leveraging soil moisture sensors for smart irrigation in the GCC H. Ali, R. Benlamri (Qatar), A. Farooque (Canada), F. Abbas (Qatar), R. Yaqub (USA)	263
Electricity generation and industrial wastewater treatment using microbial fuel cell A. Al-Matouq, M.E. Ahmed, M. Khajah, H. Abdullah, R. Al-Yaseen, M. Al-Jumaa, F. Al-Ajeel, N. Alayyadhi, A. Shishter (Kuwait)	272
Advanced wastewater treatment using functionalized membranes M.Z. Al-Abri (Oman)	275
Wastewater industrial database for total nitrogen in Shuaiba area in Kuwait A. Al-Haddad, M.E. Ahmed, H. Abdullah, A. Al-Matouq, A. Abusam (Kuwait)	277
Towards a novel wastewater treatment process: a submerged membrane electro-bioreactor (SMEBR)-simultaneous biodegradation, electrocoagulation and membrane filtration K. Bani-Melhem (Qatar), M. Elektorowicz (Canada)	286
Farmers' attitude regarding the use of treated wastewater in agricultural irrigation, the case of Saudi Arabia M.A. Alomair, A.M. Ebrahim, R.M. Alqurashi, S.M. Sidahmed (Saudi Arabia), M.M. El-Kafrawy (Saudi Arabia, Egypt), F.A. Alnajime, S.H. Hamad, R. Tawfik, K.G. Turk, A.S. Alablan (Saudi Arabia), E. Al-Karablieh (Jordan)	295
Ecofriendly and low-cost adsorbent for efficient removal of lead and nickel from aqueous solution A.S. Al Rahbi, N. Uthman, W.A. Al Rawahi, A. Al Nabhani, K. Al Maqbali, M. Al Hattali, Z. Al Zuhimi (Oman)	308
Comparative wastewater quality indicators and multivariate analysis of Riyadh sewage treatment plants and its impact on irrigation of Riyadh District A.M. Elfeky (Saudi Arabia), A.A. El-Shafei (Saudi Arabia, Egypt), F.M. Alfaisal (Saudi Arabia)	315
Green synthesis of zinc oxide nanoparticles for wastewater treatment A.S. Al Rahbi, S. Al Awaid, H. Al Amri, R. Al Syiabi, H. Al Dowiki (Oman)	324
Business model for small-scale decentralized wastewater treatment and sludge management in Jordan M.A. Tabieh, E.K. Al-Karablieh, T.H. Qtaishat, N.H. Thaher, A.Z. Salman, M.I. Majdalawi, M.T. Al-Jaghbir, N.K. Al-Karablieh, A.I. Jamrah (Jordan)	332
Author Index	344
